

## **Melcor Developments announces third quarter results, declares quarterly dividend of \$0.13 per share**

Edmonton, Alberta | November 6, 2018

Melcor Developments Ltd. (TSX: MRD), an Alberta-based real estate development and asset management company, today reported results for the quarter ended September 30, 2018. Revenue for the quarter was \$60.25 million, down 4% over Q3-2017. Year to date revenue was down 1% to \$147.45 million.

Net income for the quarter was \$11.47 million or \$0.34 per share (basic) compared with a net income of \$11.52 million or \$0.34 per share (basic) in the same period of 2017. Year to date net income was \$27.75 million compared to \$6.44 million in 2017. Net income is impacted by non-cash fair value adjustments on investment properties and on REIT units. Funds from operations (FFO) for the quarter was \$12.84 million or \$0.38 per share compared with \$12.79 million or \$0.38 per share in the same period of 2017. Year to date FFO was \$25.46 million or \$0.76 per share compared with \$28.17 million or \$0.84 per share in 2017. The decrease compared with last year is primarily due to current taxes payable resulting from the sale of assets to Melcor REIT. FFO eliminates the elements that have no cash impact on our business from net income and management believes FFO better reflects Melcor's true operating performance.

Darin Rayburn, Melcor's President and Chief Executive Officer, commented on the quarter: "Despite continued economic volatility, we maintained operating results consistent with last year. Our total assets grew to over \$2 billion at quarter end for the first time in our history. Each of our operating divisions has active projects and has achieved results that are on par with last year. We continue to thoughtfully and creatively execute on our growth strategies, including geographic diversification. In Q3-2018, we sold 140 residential lots in the US and acquired a 130,400 square foot office building in Glendale, Arizona increasing our US commercial gross leasable area by more than 25%."

The Board today declared a quarterly dividend of \$0.13 per share, payable on December 28, 2018 to shareholders of record on December 14, 2018. The dividend is an eligible dividend for Canadian tax purposes.

### **Third Quarter Results**

Given the longer term nature of real estate development, comparison of any three month period may not be as meaningful as year to date results. Land sales are lumpy by nature and it is difficult to predict when they will close. In addition, the late winter experienced across Alberta delayed construction starts and golf course openings. These factors were offset by the positive impact of the strategies employed to diversify our product mix in residential communities to appeal to a wider-range of buyers, as well as our strategic focus on diversifying geographically with a focus on the US over the past few years.

Highlights of the quarter and year to date periods include:

- Year to date revenue was down 1% compared to 2017 at \$147.45 million. Q3-2018 revenue was down 4% as a result of decreased single-family lot sales in Canadian markets.
- Year to date FFO was down 10% to \$25.46 million due to taxes owing relating to the sale to the REIT in Q1-2018. Excluding this item, FFO increased by \$0.96 million or 3% over 2017. FFO in the quarter was relatively stable over Q3-2017 at \$12.84 million.
- The Community Development and Property Development divisions are actively engaged in a number of projects as the 2018 construction season continues.
- The Property Development team has transferred 45,897 sf year to date Investment Properties and has a further 117,800 sf of commercial properties currently under construction.
- Melcor's income-producing divisions (Investment Properties and REIT) continue to yield stable results, with year to date revenue of \$76.47 million compared with \$76.23 million in 2017.
- Melcor continues to advance its value creation strategy of building commercial properties, leasing them and selling them to the REIT under a right of first offer (ROFO) agreement. In early 2018, Melcor completed the fourth sale of properties to the REIT, comprised of 172,629 sf GLA for \$80.88 million.
- On September 26, 2018 Melcor purchased a 130,400 sf office property consisting of 2 buildings in Glendale, Arizona for \$24.53 million (US\$18.91 million) including transaction costs.

- During the quarter Melcor purchased 129.5 acres of land for \$3.70 million. Year to date land purchases are 131.13 acres of land at a cost of \$4.77 million.
- The REIT division also recycled capital via the sale of two properties:
  - Corinthia Plaza: a 23,179 sf retail property in Leduc, Alberta which was originally developed by Melcor and owned since 1974, was sold for gross proceeds of \$6.73 million on January 31, 2018.
  - Miller Crossing: a 27,336 sf retail property in Edmonton, Alberta which was originally developed by Melcor in 2009, was sold for gross proceeds of \$13.80 million on April 16, 2018.
- Melcor continues to return value to shareholders and unitholders:
  - Melcor paid a quarterly dividend of \$0.13 per share on September 29, 2018. The REIT paid distributions of \$0.05625 per trust unit in July, August and September for a quarterly payout ratio of 105% and 99% year to date. The REIT's payout ratio was negatively impacted by undeployed cash due in part to the sale of two buildings earlier in the year.
  - On November 6, 2018 Melcor declared a quarterly dividend of \$0.13 per share, payable on December 28, 2018 to shareholders of record on December 14, 2018. The dividend is an eligible dividend for Canadian tax purposes.

## Forward Looking Statements

In order to provide our investors with an understanding of our current results and future prospects, our public communications often include written or verbal forward-looking statements.

Forward-looking statements are disclosures regarding possible events, conditions, or results of operations that are based on assumptions about future economic conditions, courses of action and include future-oriented financial information.

This news release and other materials filed with the Canadian securities regulators contain statements that are forward-looking. These statements represent Melcor's intentions, plans, expectations, and beliefs and are based on our experience and our assessment of historical and future trends, and the application of key assumptions relating to future events and circumstances. Future-looking statements may involve, but are not limited to, comments with respect to our strategic initiatives for 2018 and beyond, future development plans and objectives, targets, expectations of the real estate, financing and economic environments, our financial condition or the results of or outlook of our operations.

By their nature, forward-looking statements require assumptions and involve risks and uncertainties related to the business and general economic environment, many beyond our control. There is significant risk that the predictions, forecasts, valuations, conclusions or projections we make will not prove to be accurate and that our actual results will be materially different from targets, expectations, estimates or intentions expressed in forward-looking statements. We caution readers of this document not to place undue reliance on forward-looking statements. Assumptions about the performance of the Canadian and US economies and how this performance will affect Melcor's business are material factors we consider in determining our forward-looking statements. For additional information regarding material risks and assumptions, please see the discussion under Business Environment and Risk in our annual MD&A.

Readers should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Except as may be required by law, we do not undertake to update any forward-looking statement, whether written or oral, made by the company or on its behalf.

## Our Business

Melcor is a diversified real estate development and asset management company. We transform real estate from raw land to high-quality residential communities and commercial developments. We develop and manage mixed-use residential communities, business and industrial parks, office buildings, retail commercial centres and golf courses.

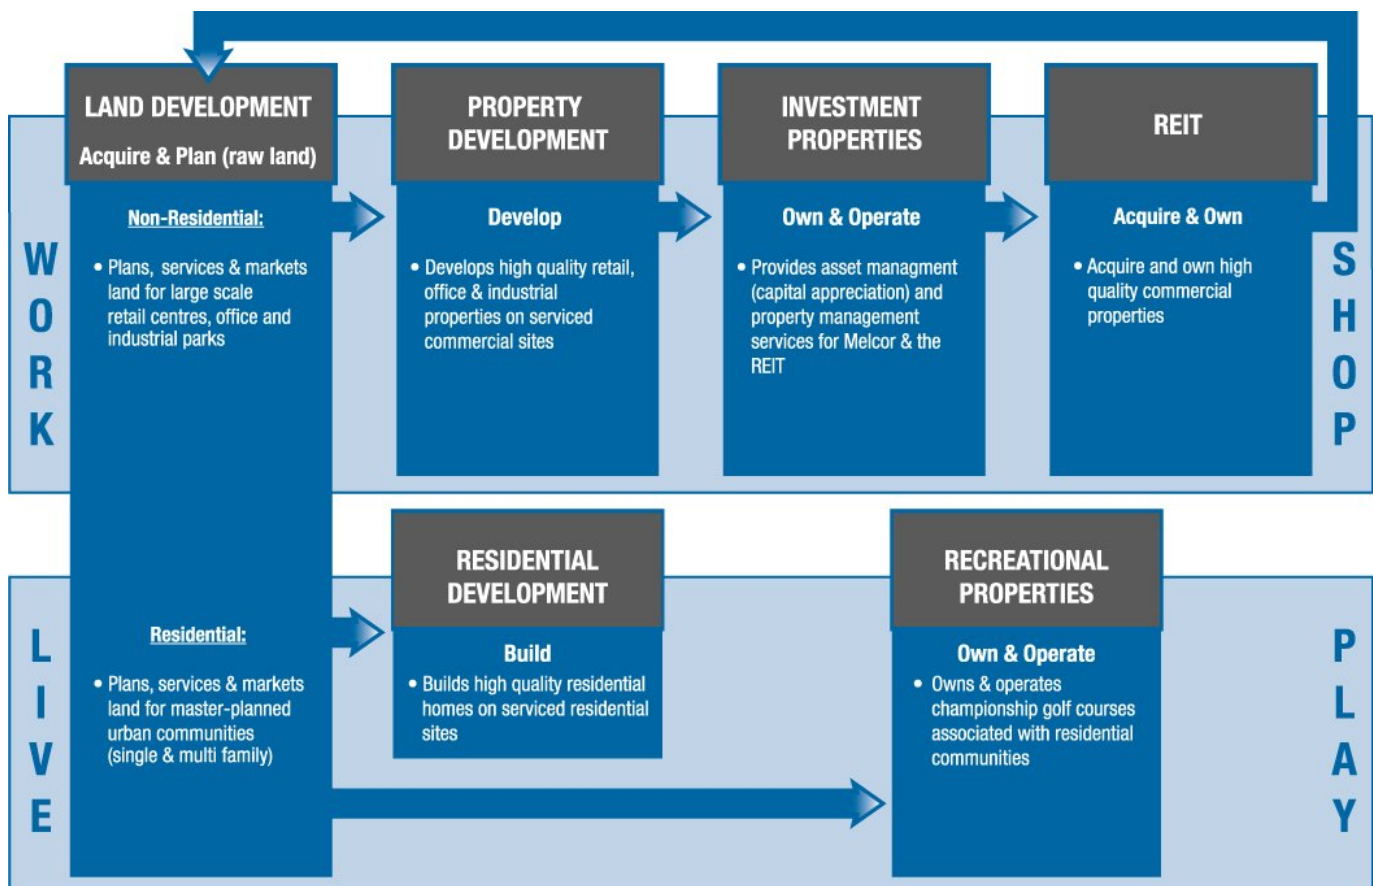

**We are committed to building communities that enrich quality of life - communities where people live, work, shop and play.**

We operate four integrated divisions that together manage the full life cycle of real estate development:

- acquiring raw land and planning residential communities and commercial developments (Community Development)
- project managing development, leasing and construction of commercial properties (Property Development)
- operating a portfolio of commercial and residential properties, focused on property improvements and capital appreciation of owned properties and property management of REIT owned properties (Investment Properties)
- acquiring and owning high quality leasable commercial and residential sites (the REIT)

In addition, we own and operate championship golf courses associated with our residential communities in our fifth division, Recreational Properties. Melcor has \$2.02 billion in assets.

The diagram below illustrates how each of our operating divisions complements one another to create and enhance value from our real estate assets.

In addition to extending the value of our asset base, these diversified operating divisions enable us to manage our business through real estate cycles (both general market conditions and the seasonality associated with construction and development) and diversify our revenue base.

Our headquarters are in Edmonton, Alberta, with regional offices across Alberta, in Kelowna, British Columbia, and in Phoenix, Arizona. Our developments span western Canada, and Colorado and Arizona in the US.

We have been publicly traded since 1968 (TSX:MRD).

Given the longer term nature of real estate development, comparison of any three month period may not be as meaningful as year to date results. Land sales are lumpy by nature and it is difficult to predict when they will close. In addition, the late winter experienced across Alberta delayed construction starts and golf course openings. These factors were offset by the positive impact of the strategies that we have employed to diversify our product mix in residential communities to appeal to a wider-range of buyers, as well as our strategic focus on diversifying geographically with a focus on the US over the past few years.

Highlights of the quarter and year to date periods include:

- Year to date revenue was down 1% compared to 2017 at \$147.45 million. Q3-2018 revenue was down 4% as a result of decreased revenue generated from single-family lot sales in our Canadian markets.
- Year to date FFO was down 10% to \$25.46 million due to taxes owing relating to the sale to the REIT in Q1-2018. Excluding this item, FFO increased by \$0.96 million or 3% over 2017. FFO in the quarter was relatively stable over Q3-2017 at \$12.84 million.
- Our Community Development and Property Development divisions are actively engaged in a number of projects as we continue through the 2018 construction season.
- Our Property Development team has transferred 45,897 sf year to date to our Investment Properties division and has a further 117,800 sf of commercial properties currently under construction.
- Our income-producing divisions (Investment Properties and REIT) continue to yield stable results, with year to date revenue of \$76.47 million compared with \$76.23 million in 2017.
- We continue to advance our value creation strategy of building commercial properties, leasing them and selling them to the REIT under a right of first offer (ROFO) agreement. In early 2018, we completed our fourth sale of properties to the REIT, comprised of 172,629 sf GLA for \$80.88 million.
- On September 26, 2018 we purchased a 130,400 sf office property consisting of 2 buildings in Glendale, Arizona for \$24.53 million (US\$18.91 million) including transaction costs.
- During the quarter we purchased 129.49 ares of land for \$3.70 million. Year to date we have purchased 131.13 acres of land at a cost of \$4.77 million.
- The REIT division also recycled capital via the sale of two properties:
  - Corinthia Plaza: a 23,179 sf retail property in Leduc, Alberta which was originally developed by Melcor and owned since 1974, was sold for gross proceeds of \$6.73 million on January 31, 2018.
  - Miller Crossing: a 27,336 sf retail property in Edmonton, Alberta which was originally developed by Melcor in 2009, was sold for gross proceeds of \$13.80 million on April 16, 2018.

- We continue to return value to our shareholders and unitholders:
  - We paid a quarterly dividend of \$0.13 per share on September 29, 2018. The REIT paid distributions of \$0.05625 per trust unit in July, August and September for a quarterly payout ratio of 105% and 99% year to date. The REIT's payout ratio was negatively impacted by undeployed cash due in part to the sale of two buildings earlier in the year.
  - On November 6, 2018 we declared a quarterly dividend of \$0.13 per share, payable on December 28, 2018 to shareholders of record on December 14, 2018. The dividend is an eligible dividend for Canadian tax purposes.

### Revenue & Margins:

Revenue for the quarter was down 4% to \$60.25 million compared with \$62.80 million in Q3-2017. Year to date, revenue was down 1% compared to 2017. Community Development division revenue for the nine month period was up 1% over 2017 however Q3-2018 revenue was down 6%. Revenue derived from single-family lot sales in our Canadian markets was down as a greater portion of sales were in joint venture communities. This was partially offset by US sales of 140 lots during the quarter, which generated revenue of \$4.35 million (US\$3.33 million). Year to date revenue on lots sold in the US added \$9.09 million (US\$7.07 million) to revenue in Community Development. Raw land, commercial, and multi-family sales tend to vary significantly quarter over quarter. Community Development division revenue is highly dependent on the real estate market for new homes in the regions where we hold land.

Gross margin improved 2% to 47%. The strong margin on the US lots sold, at 57%, contributed to an improved Community Development gross margin, up 4% in the quarter and 5% year to date at 39%. Gross margin is impacted by the mix of product sold in a given period.

Revenue and margins on our Investment Properties and REIT operating divisions remain stable. In Q3-2018, these divisions contributed revenue of \$25.18 million at 60% gross margin compared with revenue of \$25.26 million at 60% gross margin last year.

Net margin is impacted by non-cash fair value adjustments on investment properties and REIT units which can result in wide swings from period to period. These adjustments are primarily driven by market forces outside of Melcor's control. Management believes that FFO (discussed below) is a more accurate reflection of our true operating performance.

Revenue and income can fluctuate significantly from quarter to quarter due to the timing of plan registrations, the cyclical nature of real estate and construction markets, the mix of lot sales and product types, and the mix of joint operation sales activity.

## Funds From Operations (FFO)

Funds From Operations (FFO) is a non-standard measure used in the real estate industry to measure operating performance. We believe that FFO is an important measure of the performance of our real estate assets. FFO adjusts for certain non-cash earnings items included in income such as fair value adjustments on investment properties and REIT units.

Below is a reconciliation of net income to FFO:

(\$000s)	Three months ended		Nine months ended	
	30-Sept-18	30-Sept-17	30-Sept-18	30-Sept-17
<b>Net income for the period</b>	<b>11,469</b>	11,517	<b>27,747</b>	6,441
Amortization of operating lease incentives	<b>1,752</b>	1,480	<b>5,007</b>	4,635
Fair value adjustment on investment properties	<b>25</b>	(106)	<b>(258)</b>	12,751
Depreciation on property and equipment	<b>518</b>	517	<b>1,170</b>	1,175
Stock based compensation expense	<b>111</b>	93	<b>323</b>	305
Non-cash finance costs	<b>491</b>	(294)	<b>1,698</b>	(123)
Gain on sale of asset	<b>(1)</b>	(21)	<b>(6)</b>	(35)
Deferred income taxes	<b>58</b>	(287)	<b>(4,839)</b>	(1,327)
Fair value adjustment on REIT units	<b>(1,582)</b>	(112)	<b>(5,386)</b>	4,349
<b>FFO</b>	<b>12,841</b>	12,787	<b>25,456</b>	28,171
<b>FFO per share</b>	<b>0.38</b>	0.38	<b>0.76</b>	0.84

FFO was stable in the quarter at \$12.84 million, compared with \$12.79 million in Q3-2017. Year to date FFO continues to be impacted by the \$3.67 million reclassification between current and deferred tax expense recognized in the first quarter, resulting from the asset sale to the REIT. Excluding this reclassification, FFO increased by \$0.96 million or 3% over 2017. Stable performance in all our operating divisions accounts for the stability seen in FFO.

## Divisional Results

Our business is comprised of five integrated and complementary operating divisions:

- Community Development, which acquires raw land for future commercial and residential community development;
- Property Development, which develops high-quality retail, office and industrial income-producing properties on serviced commercial sites developed by Community Development or acquired from third parties;
- Investment Properties, which manages and leases the commercial developments produced by the Property Development division and an externally purchased portfolio of assets, as well as assets held in the REIT;
- The REIT, which owns and holds 36 income-producing properties; and
- Recreational Properties, which owns and operates championship golf courses associated with Melcor residential communities.

Our Corporate division carries out support functions including accounting, treasury, information technology, administration, legal and human resources.

## Community Development

Our Community Development division acquires raw land in strategic urban corridors and subsequently plans, develops and markets this land as builder-ready urban communities and large-scale commercial and industrial centres. This process includes identifying and evaluating land acquisitions, site planning, obtaining approvals from municipalities, developing the land, construction, marketing and ultimately selling the lots to home builders (for residential communities) or developers (for commercial/industrial centres). The division also sells sites to our Property Development division, who in turn develops commercial properties on the land.

Master-planned mixed-use residential communities comprise the majority of Community Development's portfolio. We create efficient and sustainable urban communities by establishing an overall vision for each community and the amenities that will make it a desirable place to live. Residential lots and multi-family parcels are sold to home builders who share our passion for quality and with whom we have long-standing relationships.

Our focus is to grow market share and income levels by ensuring that we have an appropriate land mix and the right inventory in high demand areas in growing regions. We proactively manage our agreement receivables by maintaining an exclusive builder clientele and working closely with those builders.

## Sales Activity

Revenue and income can fluctuate significantly from period to period due to the timing of plan registrations, the cyclical nature of real estate markets and the mix of land sold.

Note: The number of lots in the table above includes joint ventures at 100%; however, revenue is reported at Melcor's interest.

Year to date Community Development revenue was \$72.91 million, up 1% over 2017. Revenue for the quarter was down 6% to \$33.47 million due to lower revenue from single-family lots as a greater portion of sales came from joint venture communities where Melcor earns only its proportionate revenue (varying from 33%-60%). Year to date, revenue generated from multi-family and non-residential land sales was \$11.25 million compared to \$8.08 million in 2017. These types of sales typically fluctuate from quarter to quarter.

Single-family lot sales were up 5% to 335 lots sold in Canada in the quarter. We also sold 140 lots in the US in the quarter, demonstrating the value of our strategic initiative to diversify geographically.

The Community Development division is continuing to develop new phases in communities that meet pre-sales targets to meet market demand for diverse product types. We remain committed to managing our risk in uncertain markets by ensuring that market demand is in place prior to proceeding with development.

In 2017, management was made aware that one of our builders was in receivership. Year to date we have collected \$4.14 million (at JV%) owing from this builder through court settled transactions. This brought the remaining agreements receivable down to \$0.33 million (at JV%), which is overdue as of September 30, 2018. There have been no gains or losses recorded on these settlements. We continue to hold title to the lots sold to this builder as specific security against this balance. We believe our exposure to other developers and/or builders who are financially stressed due to the market contraction over the past few years is minimal.

Single-family lot sales may vary significantly quarter over quarter as plan registrations typically occur in the third and fourth quarters. Lot sales were down in most Canadian regions, which were offset by lot sales in the US. Our community development business in the US became active in 2017, resulting in revenue from 294 lots sold in Arizona year to date. We expect US results to continue to be lumpy, but to grow over the next few years.

## Inventory

Our primary market is Alberta. Market conditions are uncertain throughout the province and we continue to commit resources outside of Alberta to diversify our land holding portfolio.

## Raw land inventory

To support future growth, we acquire land in strategic growth corridors and maintain an inventory of land for future development in our primary markets.

During the quarter, we purchased 129.04 acres of raw land in our Edmonton region for \$3.50 million. We also purchased an additional 0.45 acres in one of our Joint Ventures for \$0.20 million (at JV%) on land adjacent to our current development.

In Q3-2017, we purchased 10.00 acres in our Red Deer region, and 14.55 acres in our Edmonton region.

We continue to monitor our land holdings and explore opportunities to secure future positions in the western Canada and US markets.

## Property Development

Our Property Development division develops, manages construction, markets and initially leases high-quality retail, office and industrial income-producing properties. The division currently operates solely in Alberta.

The Property Development division supports Melcor's strategic objectives of asset diversification, income growth and value creation by constructing income-producing commercial developments, primarily on land acquired at fair market value from the Community Development division.

The Property Development division increases the value of land assets and delivers long-term sustainable returns with high profile anchor tenants such as ATB, Bank of Montreal, Canadian Tire, Canadian Western Bank, Cara, CIBC, Home Depot, Loblaws, McDonald's, Rona, Royal Bank, Save-on Foods, Scotiabank, Shoppers Drug Mart, Staples, Starbucks, Subway, TD Canada Trust, Tim Hortons, Wal-Mart, Winners and many others.

Completed buildings are transferred from Property Development to Investment Properties at fair market value (based on third party appraisals) once construction and leasing activity nears completion. The transfer revenue and related costs are eliminated on consolidation and do not impact overall earnings.

Management fee revenue is comprised of fees paid by joint arrangement partners and is a percentage of total development costs incurred, which fluctuate period to period depending on the development stage of active projects.

The Property Development division realizes fair value gains resulting from development and leasing activities as construction is in progress. We generally expect to see the majority of fair value increases in the third and fourth quarters as construction and leasing are completed.

Development progressed at The Shoppes at Jagare Ridge and Jensen Lakes Crossing, however no buildings were transferred to Investment Properties this quarter. Transfers occur once certain leasing and construction thresholds have been met. Year to date, 3 buildings have transferred, representing 45,897 sf for total revenue of \$19.85 million. The Property Development division currently has approximately 117,800 sf under active development.

Development also continued on our Jensen Lakes Crossing site with gains of \$0.28 million being recorded in the quarter.

The office building at The Village at Blackmud Creek is near completion and is expected to transfer to Investment Properties in 2019.

**Southern Alberta:** We continue to actively construct a 6,400 sf CRU in Southern Alberta and have an additional two CRUs (18,500 sf) awaiting permitting.

## Future development opportunities

We continually identify parcels of land from our land inventory that are well suited for commercial development. We also work with municipalities to gain approvals to commence development on new projects.

## Investment Properties

Our Investment Properties division manages and leases our portfolio of high-quality office, retail, industrial and residential properties, which are located across western Canada and the US, including the properties owned by the REIT.

Our Investment Properties division manages 4,050,649 sf of income-producing commercial GLA and 609 residential units.

Our commercial property portfolio is primarily comprised of properties developed and transferred from our Property Development division. Our goal is to improve the operating efficiency of each property for stable and growing cash flows making them attractive assets for the REIT to purchase under its Right of First Offer (ROFO) option. In our management capacity, we are committed to efficient property management for optimized operating costs, occupancy and rental rates, providing the REIT and our joint venture partners with best in class management services. We focus on client retention through continuous customer contact and ongoing service evaluations. We also enhance our portfolio by upgrading the appearance, functionality and desirability of our properties, thereby increasing their rental potential.

Our US properties provide the division with a stable income stream that diversifies our exposure to the western Canadian resource sector. We also own 6 parking lots and other assets which are held for the long-term, providing current stable income and future re-development potential.

Our portfolio under management has high occupancy rates with long-term tenancies from high-quality retail and commercial clients.

Since the formation of the REIT in 2013, the Investment Properties division's primary function is asset management and hands on property management.

### Canadian properties

On January 12, 2018, we completed a transaction whereby five commercial properties were sold from Melcor to Melcor REIT. This transaction demonstrates our strategy of monetizing value created on the assets that Melcor develops and leases. There was no revenue generated on assets transferred to the REIT in the quarter (\$1.52 million in Q3-2017). Revenue related to these properties is now shown in the REIT operating division. As Melcor controls the REIT, the revenue is fully recognized on consolidation.

Investment Properties continues to grow as properties are developed and transferred from our Property Development division. Over the past twelve months, Property Development has transferred five buildings representing 63,434 sf (at 100%). Revenue generated on assets acquired from Property Development and held through the year was \$1.84 million (2017 - \$0.06 million). This portfolio growth was offset by the transfers to the REIT discussed above.

Occupancy on Canadian properties was 98% at September 30, 2018, up 8% over Q2-2018 and up 7% since year end. Weighted average base rents (WABR) were \$23.16 per SF, down 8% since Q2-2018 and 10% since year end as a result of lease ups on our industrial property and more tenants on rent-free periods. The properties transferred to the REIT had a WABR of \$28.08 per SF which were moved out of the Investment Properties portfolio and into the REIT division in Q1-2018 bringing year to date WABR down from \$25.86 per SF. This transfer pulled down Investment Properties WABR, however resulted in an increase in WABR in the REIT from \$15.88 per SF to \$16.58 per SF year to date.

The calculation of Canadian properties same asset NOI is as follows:

\* See non-standard measures for definition.

Net operating income (NOI) and same-asset NOI are non-standard metrics used in the real estate industry to measure the performance of investment properties. The IFRS measurement most directly comparable to NOI and same-asset NOI is segment earnings.

Gross profit was down 13% to \$2.22 million in the quarter and down 19% to \$6.23 million year to date as a result of the sale to Melcor REIT in Q1-2018. NOI on properties sold to the REIT was \$3.20 million in the comparative period (Q3-2018 - \$0.06 million).

Same asset NOI was up 3% for the quarter at \$1.64 million (Q3-2017 - \$1.59 million). Year to date, same asset NOI was up 5% to \$4.70 million (Q3-2017 - \$4.48 million).

### US properties

Our US property portfolio has stabilized over the past 12 months following significant changes in 2015/2016. Revenue on US properties was \$3.48 million compared with \$3.39 million in Q3-2017. In Q1-2018 we disposed of two residential units at one of our properties in Arizona for \$0.52 million (US\$0.41 million).

On September 26, 2018 we purchased a 130,400 sf office property consisting of 2 buildings in Glendale, Arizona for \$24.53 million (US\$18.91 million) including transaction costs. The property was 85% occupied at September 30, 2018.

Occupancy was 84%, down 3% over year end and 4% over the prior quarter. Weighted average rental rates on our US commercial properties were down over year end at US\$16.03 per SF, from US\$18.43 per SF, the result of the timing of rent-free periods.

The calculation of US properties same asset NOI is as follows:

Same asset NOI was up \$0.35 million over Q3-2017.

### Management fees & other

We earn management fees under the asset management and property management agreements with the REIT and under other joint venture agreements where Melcor acts as the manager. Management fees were \$1.25 million in the quarter, compared with \$1.20 million in Q3-2017. Revenue from our 516 parking stalls and other assets was \$0.32 million in Q3-2018 (Q3-2017 - \$0.34 million). These revenues can fluctuate from period to period.

FFO was steady at \$4.33 million for the quarter (Q3-2017 - \$4.42 million). Year to date FFO was down 21% to \$13.10 million as a result of the sale of properties to the REIT in Q1-2018.

### REIT

The REIT owned 36 income-producing office, retail and industrial properties, comprising 2,835,228 sf of gross leasable area (GLA) at September 30, 2018. The REIT's portfolio has a diversified tenant profile, with a mix of national, regional and local tenants, operating in a variety of industries.

We have a controlling 53.0% effective interest in the REIT through ownership of all Class B LP Units (December 31, 2017 - 56.7%). As Melcor controls the REIT, we consolidate 100% of the REIT's revenues, expenses, assets and liabilities.

Rental revenue for the period increased by \$0.49 million or 3% over Q3-2017. The increase in revenue was a result of the Melcor Acquisition completed on January 12, 2018, partially offset by the sale of two properties over the past twelve months and lower same-asset revenue. Q3-2018 rental revenue from the Melcor Acquisition properties was \$1.83 million and \$5.25 million year to date. During the nine-month period we also recognized \$0.38 million of rental revenue from properties sold within the last twelve months (2017 - \$0.39 million in the quarter and \$1.33 million year to date). Same-asset revenues were down in the quarter and year to date due to lower same-asset occupancy, impacting base rents as well as our recovery ratio.

Year to date we completed 255,954 sf of lease renewals (including holdovers) and had 73,843 sf in new leases commence for steady occupancy at 90.3%. During 2018, 91 leases representing 437,397 sf or 15.2% of our portfolio are up for renewal. We have retained 76.0% of expiring leases (representing 336,679 sf) as at September 30, 2018 in spite of challenging market conditions in our Northern Alberta portfolio. We remain committed to our proactive leasing program to both retain tenants and attract new tenants.

Weighted average base rent was \$16.58, up \$0.70 compared to December 31, 2017 and \$0.86 over Q3-2017 due to the Melcor Acquisition, which had a weighted average base rate of \$28.08. This increase was partially offset by lower rates on new leasing completed during the period and the sale of Corinthia Plaza and Miller Crossing in the first half of 2018.

Direct operating expenses were up 7% year to date in 2018. Excluding the impact of properties acquired and disposed of over the past twelve months, direct operating expenses increased by 1%. On a same-asset basis, property taxes and utilities increased by 3% due to higher mill rates and increased utility consumption on account of colder weather and increases to levies and taxes in Alberta. The timing of maintenance projects led to a 2% decrease in same-asset operating expenses to date in 2018. As a cornerstone of our property management strategy, we are committed to efficient and cost effective maintenance of our buildings to ensure maximum value to our tenants and unitholders.

Portfolio growth over the past twelve months contributed to a 3% increase in NOI over Q3-2017. On a same-asset basis, third quarter NOI was down 7% as a result of lower occupancy and weighted average base rates. Same-asset NOI was down 3% compared to Q2-2018.

The calculation of REIT same asset NOI is as follows:

(\$000s except as noted)	Three months ended		Nine months ended

### Funds from operations

FFO was up in the third quarter at \$10.53 million compared with \$10.47 million in the prior year. The increase in FFO was driven by the properties purchased from Investment Properties in January 2018.

### Recreational Properties

Our Recreational Properties division owns and manages championship golf courses built to add value to Melcor residential communities.

Our golf courses aspire to achieve consistent course conditions and quality, and to be recognized as championship public golf courses with state of the art clubhouses that contribute to our ability to attract tournaments and events. Achieving these goals enables us to find the appropriate balance between the revenue levers of course fees, number of rounds played and customer satisfaction and enjoyment.

The Recreational Properties division earned revenue of \$7.71 million year to date, a decrease of 3% over 2017. Adverse weather conditions significantly impacted activity at our Alberta courses throughout the season. In spite of rounds of golf being down 8% compared to 2017, food and beverage sales remained stable.

Black Mountain was named the Golf Facility of the Year by the PGA of BC in October.

	Ownership interest	Season opened 2018	Rounds of Golf	Season opened 2017	Rounds of Golf
<i>Managed by Melcor:</i>					
Lewis Estates (Edmonton)	60%	April 27	22,610	April 6	26,316

<i>Managed by a Third Party:</i>					
Jagare Ridge (Edmonton)	50%	May 1	20,929	April 29	21,616

### General and Administrative Expense

General and administrative expenses (G&A) were consistent with the comparable period. Corporate G&A decreased by \$0.15 million, to \$1.85 million in the quarter as we continue to prudently monitor our controllable expenses. Our other operating divisions remained fairly steady over Q3-2017. Year to date G&A in 2017 was impacted by the accrual of a one-time retirement allowance.

### Income Tax Expense

The statutory tax rate is 27% for the three and nine months ended September 30, 2018, consistent with 2017. Significant adjustments that impacted the 2018 effective tax rate include the non-taxable portion of REIT income as well as permanent differences related to revaluation adjustments on investment properties and REIT units.

## Liquidity & Capital Resources

The following table represents selected information as at September 30, 2018, compared with December 31, 2017.

As at (\$000s except as noted)	30-Sept-18	31-Dec-17
Cash & cash equivalents	38,304	42,505

Total liabilities	987,960	982,393
Debt to equity ratio*	0.96	0.97

\*See non-standard measures for definition and calculation.

We employ a range of strategies to maintain operations and facilitate growth. Our principal liquidity needs are to:

- Fund recurring expenses;
- Meet debt service requirements;
- Make dividend payments;
- Make distributions to unitholders of the REIT;
- Fund land development; and
- Fund investing activities such as the discretionary purchase of land inventory and/or investment property purchases.

We are able to meet our capital needs through a number of sources, including cash generated from operations, long and short-term borrowings from our syndicated credit facility, mortgage financings, convertible debentures, and the issuance of common shares or trust units. Our primary use of capital includes paying operating expenses, sustaining capital requirements on land and property development projects, completing real estate acquisitions, debt principal and interest payments, paying distributions on the REIT units and paying dividends when declared by our board of directors.

We believe that internally generated cash flows, supplemented by borrowings through our credit facility and mortgage financings, where required, will be sufficient to cover our normal operating and capital expenditures. We regularly review our credit facility limits and manage our capital requirements accordingly.

### Financing

As at September 30, 2018, our total general debt outstanding was \$677.62 million. A summary of our debt is as follows:

As at (\$000s)	30-Sept-18	31-Dec-17
Melcor - revolving credit facilities	54,212	76,529
REIT - revolving credit facility	—	—
Project specific financing	68,987	20,926
Secured vendor take back debt on land inventory	41,181	64,891
Debt on investment properties and golf course assets	457,735	444,807
REIT - convertible debentures	55,500	54,775
Total general debt	677,615	661,928
Less: Liabilities held for sale	—	3,670
General debt	677,615	658,258

We are subject to financial covenants on our revolving credit facility. The covenants include a maximum debt to total capital ratio of 125%, a minimum debt service coverage ratio of 3.00, and a minimum net book value of shareholder's equity of \$300.00 million. As at September 30, 2018 and throughout the period, we were in compliance with our financial covenants.

We are also subject to financial covenants on the REIT's \$35.00 million revolving credit facility. The covenants include a maximum debt to total capital ratio of 60% (excluding convertible debenture), a minimum debt service coverage ratio of 1.50, and a minimum adjusted unitholders' equity of \$140.00 million. As at September 30, 2018 and throughout the period, we were in compliance with our financial covenants.

These metrics are non-standard measures used to assess compliance with our lending agreements and are not specifically defined in the CPA Handbook or in IFRS. These non-standard measures may not be comparable to similar measures presented by other companies.

### Sources and uses of cash

The following table summarizes our cash flows from (used in) operating, investing and financing activities, as reflected in our consolidated statement of cash flows:

(\$000s)	Three months ended		Nine months ended	
	30-Sept-18	30-Sept-17	30-Sept-18	30-Sept-17
Cash flows from (used in) operating activities	3,923	(3,139)	2,179	8,229
Cash flows used in investing activities	(29,753)	(11,371)	(25,492)	(16,734)
Cash flows from financing activities	32,587	30,122	18,720	12,553

We generated \$3.92 million from operating activities in Q3-2018. Net income adjusted for non-cash items contributed \$12.41 million in cash during the quarter compared with \$12.10 million in Q3-2017. Community development activities used \$22.55 million and we spent \$1.08 million on land purchases in the quarter. We continue to focus on tenant retention and leasing and spent \$2.60 million on lease incentives and direct leasing costs, an increase of \$1.17 million over the comparative period. Collections on agreements receivable contributed \$9.91 million and changes in our operating assets and liabilities also contributed \$7.84 million to cash from operations.

We spent \$29.75 million in investing activities in Q3-2018 compared with \$11.37 million during Q3-2017. Additions to Investment Properties of \$4.89 million includes the costs of developing assets in our Property Development division as well as improvements on existing assets in the Investment Properties division. We continue to develop commercial properties and invest in enhancements to our existing portfolio. Our year to date spend was \$17.22 million, compared with \$23.47 million in 2017. On September 26, 2018 we purchased a commercial building in Glendale, Arizona for \$24.53 million.

Cash flows from financing activities were \$32.59 million during the quarter, down by \$2.47 million compared to Q3-2017. Proceeds from general debt of \$65.81 million include \$39.00 million in refinancing on an investment property with the balance related to project specific financing on land and property development projects .

On January 12, 2018 we received \$17.30 million from the issuance of 2,035,500 REIT trust units. Proceeds were used to pay down the revolving credit facilities, which has decreased \$22.32 million year to date. In the quarter, we paid a \$0.13 per share dividend for a total of \$4.34 million (Q3-2017 - \$0.13 per share). Year to date dividend payments are \$13.03 million, consistent with 2017.

## Share Data

Melcor has been a public company since 1968 and trades under the symbol “MRD” on the Toronto Stock Exchange. As at September 30, 2018 there were 33,403,651 common shares issued and outstanding and 955,847 options, each convertible to one common share upon exercise or exchange. There is only one class of common shares issued. As at September 30, 2018, no restricted share units have been issued.

## Off Balance Sheet Arrangements, Contractual Obligations, Business Environment & Risks, Critical Accounting Estimates, Changes in Accounting Policies

There are no material changes to the above titled sections at September 30, 2018 in comparison to the December 31, 2017 annual MD&A. Refer to note 3 of the condensed interim consolidated financial statements for changes in accounting policies.

## Normal Course Issuer Bid

On March 29, 2018 we announced a Normal Course Issuer Bid (NCIB) commencing March 31, 2018 and ending March 30, 2019. Under the bid, we may acquire up to 1,669,782 common shares in total (approximately 5% of our issued and outstanding common shares) with a daily repurchase restriction of 1,262 common shares. We may also make one block purchase each calendar week in excess of the daily repurchase restriction in accordance with the Block Purchase Exemption rules of the TSX.

In connection with the commencement of the NCIB, we entered into an automatic share purchase plan (ASPP) agreement with a broker to allow for the purchase of common shares under the NCIB at times when we ordinarily would not be active in the market due to regulatory restrictions or self-imposed trading blackout periods.

During the year and quarter ended September 30, 2018, we did not repurchase any common shares. Subsequent to the quarter, we repurchased 18,158 common shares from the public market under the ASPP agreement at a cost of \$0.25 million.

## Quarterly Results

The following table presents a summary of our unaudited operating results for the past eight quarters. This information should be read in conjunction with the related financial statements, notes to the financial statements and management's discussion and analysis.

We have historically experienced variability in our results of operations from quarter to quarter due to the seasonal nature of the development business and the timing of plan registrations with the municipalities. We typically experience the highest sales in our Community Development division in the fourth quarter, as this is when the majority of plans register. The fair value gains in our Property Development division are also seasonally affected, as the majority of construction in Alberta takes place during the spring and summer months. Growth in our income-producing assets serves to offset this cyclicity.

## Subsequent Events

Refer to note 14 of the interim consolidated financial statements for information pertaining to subsequent events.

## Internal Control over Financial Reporting & Disclosure Controls

The Chief Executive Officer and the Chief Financial Officer have evaluated whether there were material changes to internal control over financial reporting during the quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting. No such changes were identified.

## Non-standard Measures

Throughout this MD&A, we refer to terms that are not specifically defined in the CICA Handbook and do not have any standardized meaning prescribed by IFRS. These non-standard measures may not be comparable to similar measures presented by other companies.

We believe that these non-standard measures are useful in assisting investors in understanding components of our financial results.

The non-standard terms that we refer to in this MD&A are defined below.

**Net operating income (NOI):** this is a measure of revenue less direct operating expenses.

**Same asset NOI:** this measure compares the NOI on assets that have been owned for the entire current and comparative period.

**Funds from operations (FFO):** this measure is commonly used to measure the performance of real estate operations.

## Calculations

We use the following calculations in measuring our performance.

**Book value per share** = (shareholders' equity) / (number of common shares outstanding)

**Gross margin (%)** = (gross profit) / (revenue) This measure indicates the relative efficiency with which we earn revenue

**Net margin (%)** = (net income (loss)) / (revenue) This measure indicates the relative efficiency with which we earn income

**Debt to equity ratio** = (total debt) / (total equity)

**Net operating income (NOI)** = (net income (loss)) +/- (fair value adjustments on investment properties) + (general and administrative expenses) – (interest income) + (amortization of operating lease incentives) +/- (straight-line rent adjustment). A reconciliation of NOI to the most comparable IFRS measure, net income (loss), is as follows:

## 1. DESCRIPTION OF THE BUSINESS

We are a real estate development company with community development, property development, investment properties, REIT and recreational property divisions. We develop, manage, and own mixed-use residential communities, business and industrial parks, office buildings, retail commercial centres, and golf courses.

Melcor Developments Ltd. ("Melcor" or "we") is incorporated in Canada. The registered office is located at Suite 900, 10310 Jasper Avenue Edmonton, AB T5J 1Y8. We operate in Canada and the United States ("US"). Our shares are traded on the Toronto Stock Exchange under the symbol "MRD". As at September 30, 2018 Melton Holdings Ltd. holds approximately 47.0% of the outstanding shares and pursuant to IAS 24, Related party disclosures, is the ultimate controlling shareholder of Melcor.

As at November 6, 2018, Melcor through an affiliate, holds an approximate 53.0% effective interest in Melcor REIT ("REIT" or "the REIT") through ownership of all Class B LP Units of the Partnership and is the ultimate controlling party. Melcor continues to manage, administer and operate the REIT and its properties under an asset management agreement and property management agreement. Trust units of the REIT are traded on the Toronto Stock Exchange under the symbol "MR.UN".

Our quarterly results are impacted by the cyclical nature of our business environment. Income can fluctuate significantly from period to period due to the timing of plan registrations, the cyclical nature of real estate and construction markets, and the mix of lot sales and product types.

## 2. BASIS OF PRESENTATION

We prepare our condensed interim consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting.

These condensed interim consolidated financial statements should be read in conjunction with our annual consolidated financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS as issued by the IASB.

These condensed interim consolidated financial statements were approved for issue by the Board of Directors on November 6, 2018.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND NEW STANDARDS ADOPTED

The accounting policies followed in these condensed interim consolidated financial statements are consistent with those of the previous financial year, except as described below. Beginning January 1, 2019 IFRS 16, Leases, will be in effect. We are in the process of assessing the impact of this new standard on our financial statements.

We have adopted the following new IFRS standards effective January 1, 2018

- a) **IFRS 15, Revenue from Contracts with Customers** supersedes IAS 18, 'Revenue', IAS 11, 'Construction Contracts' and other interpretive guidance associated with revenue recognition. IFRS 15 is to be applied to each prior reporting period presented retrospectively or through the recognition of the cumulative effect to opening retained earnings.

### *Impact of adoption*

The adoption of IFRS 15 did not result in any adjustments upon transition, change in recognition, or timing of recognition of revenue from contracts in Melcor. Adoption does require additional disclosures to the interim financial statements to distinguish between those revenues related to lease components or service revenues (note 8).

Lease revenues will continue to be accounted for under IAS 17, Leases, with the exception of any service component revenue earned on a lease contract which will now be accounted for under IFRS 15. Management fee revenue earned on Melcor's joint arrangements will continue to be accounted for under IFRS 11 and revenues from land sales and golf courses will be accounted for under IFRS 15.

### *Accounting Policies Adopted From January 1, 2018*

Revenue is generated from the sale of developed land, rental of investment properties, management fees, and the operation of golf courses.

Revenue from contracts related to the sale of developed land is recognized at a point in time, which is when a minimum of 15% of the sale price has been received, the sale is unconditional and possession has been granted. All contracts related to the sale of developed land have one performance obligation, the delivery of a fully developed lot to the

customer. Common areas within a development community that are subsequently transferred to municipal or government organizations or home-owner associations are not considered an extension of a customer and therefore; this does not represent a separate performance obligation.

Management fee revenue is comprised of fees paid by our joint arrangement partners based on development and/or sales activities, which fluctuates period to period depending on the stage of various projects.

Tenant leases are accounted for as operating leases given that we have retained substantially all of the risks and benefits of the ownership of our investment properties.

Rental revenues include both lease and service revenue components. Lease revenues from investment properties include base rents, recoveries of operating expenses including property taxes, parking revenue, incidental income and sign and storage lease revenue. Revenue recognition under a lease commences when the tenant has a right to use the leased asset. The total amount of contractual rent to be received from the operating leases is recognized on a straight line basis over the term of the lease; a straight line rent receivable which is included in other assets, is recorded for the difference between the rental revenue recognized and the contractual amount received. When incentives are provided to our tenants, the cost of these incentives is recognized over the lease term, on a straight line basis as a reduction to rental revenue.

Service revenues are amounts outlined separately in the lease agreement for distinct services provided including utilities, maintenance and security recoveries from tenants which are recognized on a monthly basis in the period in which the corresponding costs are incurred and performance obligations are completed.

Revenue from contracts related to golf courses (green fees, food and beverage) is recognized at a point in time and the performance obligation is satisfied in the accounting period in which the services are provided. Membership revenue from golf courses is recognized over time on a monthly basis in the period in which the performance obligations are completed.

- b) IFRS 9, Financial Instruments** replaces IAS 39 and introduces a new classification and measurement model with three classification categories, 'amortized cost', 'fair value' and 'fair value through other comprehensive income', for financial assets, as well as an expected loss impairment model that requires more timely recognition of expected credit losses and a new hedge accounting model.

#### *Impact of adoption*

The adoption of IFRS 9 did not result in any adjustments upon transition. Financial assets which include cash and cash equivalents, restricted cash, accounts receivable and agreements receivables were previously classified as Loans and Receivable are now classified as amortized cost. This change in classification did not result in any changes in measurement of financial assets in Melcor.

Melcor was required to revise its impairment methodology under IFRS 9 for its financial assets, to account for expected credit losses. To measure the expected credit loss, financial assets have been grouped based on shared credit risk characteristics, days past due or past due. While our financial assets are subject to the expected credit loss requirements, the identified loss was immaterial.

There was no impact to the measurement, recognition or disclosures of financial liabilities, and Melcor does not apply hedge accounting.

#### *Accounting Policies Adopted From January 1, 2018*

##### **Financial assets**

Finance assets that are held for collection of contractual cash flows represent solely payments of principle and interest are measured at amortized cost. This includes cash and cash equivalents, restricted cash, accounts receivable and agreements receivable. Financial assets are initially recognized at fair value plus transaction costs, adjusted for an expected credit loss. Subsequently, receivables are measured at amortized cost using the effective interest rate method adjusted for expected credit losses.

For financial assets, Melcor applies the simplified expected credit loss approach, which requires expected lifetime losses to be recognized from initial recognition of the accounts receivables and agreements receivables.

#### 4. ASSET HELD FOR SALE

On January 31, 2018, we disposed of an industrial property previously held for sale for proceeds of \$6,732 (net of transaction costs and including tenant incentives of \$66 and straight line rent of \$24). The sale price was settled through mortgage assumption of \$3,662 and cash of \$3,070.

#### 5. LAND INVENTORY

In accordance with our policy we record our investment properties at fair value. Fair value adjustments on investment properties are primarily driven by changes in capitalization rates and stabilized net operating income ("NOI"). Supplemental information on fair value measurement, including valuation techniques and key inputs, is included in note 12.

#### Acquisitions

On September 26, 2018 we purchased an office property consisting of 2 buildings for \$24,532 (US\$18,907) (including transaction costs). This acquisition was accounted for as an asset purchase in accordance with our policy.

#### Disposals

During the nine-month period ended September 30, 2018, we disposed of two residential units in Arizona for a sales price of \$261 and \$255 (US\$212 and US\$199) (net of transaction costs). The sale price was settled through cash.

Also during the nine-month period we sold an investment property for proceeds of \$13,389 (net of transaction costs and including tenant incentives of \$434 and straight line rent of \$80). Concurrent with the sale we paid off the associated mortgage liability which had a balance of \$6,947.

## 11. NON-CONTROLLING INTEREST IN MELCOR REIT

On January 12, 2018 the REIT completed the issuance of 2,035,500 trust units in exchange for subscription receipts previously issued and outstanding as of December 31, 2017. Subscription receipts had been issued at \$8.50 for gross proceeds of \$17,302, including \$2,257 issued pursuant to the exercise of an over-allotment option. The funds were used to help the REIT finalize a purchase of five commercial properties to the REIT for a total sales price of \$80,875. The sales price was settled through the REIT's assumption of \$31,038 in mortgages payable; issuance of 1,331,167 Class C LP units, representing \$13,312 in Retained Debt by Melcor; issuance of 283,447 Class B LP units at price of \$8.82, representing \$2,500; and cash of \$34,025. As at September 30, 2018 Melcor owns a 53.0% interest in the REIT through ownership of Class B LP units. We have assessed and concluded that Melcor continues to retain control of the REIT in accordance with IFRS 10 Consolidated Financial Statements.

In accordance with our policy, we account for the remaining 47.0% publicly held interest in the REIT as a financial liability measured at fair value through profit or loss ("FVTPL"). As at September 30, 2018 the REIT units had a fair value of \$106,813. We recorded adjustments related to REIT units for the three and nine months ended September 30, 2018 of \$643 and \$2,778 (Q3-2017 - \$1,769 and \$9,994).

As illustrated in the table below, the adjustment is comprised of:

## 12. FAIR VALUE MEASUREMENT

Fair value is the price that market participants would be willing to pay for an asset or settle a liability in an orderly transaction under current market conditions at the measurement date.

The fair value of Melcor's financial instruments were determined as follows:

- the carrying amounts of cash and cash equivalents, accounts receivables, agreements receivable and accounts payable and accrued liabilities approximate their fair values based on the short term maturities of these financial instruments.
- fair values of general debt are estimated by discounting the future cash flows associated with the debt at market interest rates (Level 3).
- fair value of derivative financial liabilities, which is the conversion feature on the REIT convertible debenture, and our floating for fixed interest rate swap, are estimated based upon unobservable inputs, including volatility and credit spread (Level 3).
- fair value of REIT units are estimated based on the closing trading price of the REIT's trust units and the fair value of the convertible debenture is estimated based on the closing trading price of the REIT's debenture (Level 1).

In addition, Melcor carries its investment properties at fair value, which is determined based on the accepted valuation methods of direct income capitalization or discounted future cash flows (Level 3).

The fair value hierarchy categorizes fair value measurement into three levels based upon the inputs to valuation technique, which are defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

There were no transfers between the levels of the fair value hierarchy during the period.

The following table summarizes Melcor's assets and liabilities carried at fair value and its financial assets and liabilities where carrying value does not approximate fair value.

	September 30, 2018					December 31, 2017

### Investment properties

Investment properties are remeasured to fair value on a recurring basis, determined based on the accepted valuation methods of direct income capitalization or discounted future cash flows. The application of these valuation methods result in these measurements being classified as level 3 in the fair value hierarchy.

Under the discounted future cash flows method, fair values are determined by discounting the forecasted future cash flows over ten years plus a terminal value determined by applying a terminal capitalization rate to forecasted year eleven cash flows.

Under the direct income capitalization method, fair values are determined by dividing the stabilized net operating income of the property by a property specific capitalization rate.

The significant unobservable inputs in the Level 3 valuations are as follows:

- Capitalization rate - based on actual location, size and quality of the property and taking into consideration available market data as at the valuation date;
- Stabilized net operating income - revenue less direct operating expenses adjusted for items such as average lease up costs, vacancies, non-recoverable capital expenditures, management fees, straight-line rents and other non-recurring items;
- Discount rate - reflecting current market assessments of the uncertainty in the amount and timing of cash flows;
- Terminal capitalization rate - taking into account assumptions regarding vacancy rates and market rents; and
- Cash flows - based on the physical location, type and quality of the property and supported by the terms of existing leases, other contracts or external evidence such as current market rents for similar properties.

An increase in the cash flows or stabilized net operating income results in an increase in fair value of investment property whereas an increase in the capitalization rate, discount rate or terminal capitalization rate decreases the fair value of the investment property.

In determining the fair value of our investment properties judgment is required in assessing the 'highest and best use' as required under IFRS 13, *Fair value measurement*. We have determined that the current uses of our investment properties are their 'highest and best use'.

Melcor's executive management team is responsible for determining fair value measurements on a quarterly basis, including verifying all major inputs included in the valuation and reviewing the results. Melcor's management, along with the Audit Committee, discuss the valuation process and key inputs on a quarterly basis. At least once every two years, the valuations are performed by qualified external valuers who hold recognized and relevant professional qualifications and have recent experience in the location and category of the investment property being valued.

Investment properties were valued by Melcor's internal valuation team as at September 30, 2018 of which 21 investment properties (of 82 legal phases) with a fair value of \$255,150 were valued by qualified independent external valuation professionals during the period. Valuations performed during the period resulted in fair value gains of \$258. As at December 31, 2017 Melcor's internal valuation team valued investment properties of which 48 investment properties (of 81 legal phases valued) with a fair value of \$688,267 were valued by qualified independent external valuation professionals during the year. Valuations performed during 2017 resulted in fair value losses of \$8,828.

The following table summarizes the valuation approach, significant unobservable inputs, and the relationship between the inputs and the fair value:

Asset	Valuation approach	Significant unobservable inputs	Relationship between inputs and fair value
Investment properties	Direct capitalization or discounted cash flows	- Capitalization rate - Discount rate - Terminal rate - Stabilized NOI - Cash flows	Inverse relationship between capitalization, discount and terminal rates and fair value (higher rates result in decreased fair value); whereas higher stabilized NOI or cash flows results in increased fair value.
Properties under development	Direct capitalization less cost to complete	- Capitalization rate - Stabilized NOI - Costs to complete	Inverse relationship between capitalization rate and fair value (higher capitalization rate results in lower fair value); whereas higher stabilized NOI results in increased fair value.
Properties under development - undeveloped land	Direct comparison	- Comparison to market transactions for similar assets	Land value reflects market value.

Weighted average annual stabilized net operating income for investment properties as at September 30, 2018 is \$1,500 (December 31, 2017 - \$1,484). Other significant valuation metrics and unobservable inputs are set out in the following table. Fair values are most sensitive to changes in capitalization rates.

September 30, 2018	Investment Properties			Properties under Development		
	Min	Max	Weighted Average	Min	Max	Weighted Average
Capitalization rate	5.50%	8.75%	6.62%	6.00%	6.50%	6.21%
Terminal capitalization rate	5.75%	9.00%	6.73%	6.25%	6.25%	6.25%
Discount rate	6.50%	9.75%	7.66%	7.00%	7.00%	7.00%

December 31, 2017	Investment Properties			Properties under Development		
	Min	Max	Weighted Average	Min	Max	Weighted Average
Capitalization rate	5.50%	8.75%	6.60%	5.75%	6.50%	6.07%
Terminal capitalization rate	5.75%	9.00%	6.75%	6.00%	6.25%	6.07%
Discount rate	6.00%	9.75%	7.67%	6.75%	7.00%	6.93%

An increase in capitalization rates by 50 basis points would decrease the fair value and carrying amount of investment properties by \$56,131 (December 31, 2017 - \$56,320). A decrease in capitalization rates by 50 basis points would increase the fair value and carrying amount of investment properties by \$65,299 (December 31, 2017 - \$65,115).

### General debt, excluding derivative financial liabilities

The fair value of revolving credit facilities approximates the carrying value excluding unamortized financing costs. The facilities bear interest, at our option, at a rate per annum equal to either the bank's prime lending rate plus 0.75% to 2.25% or at the bank's then prevailing banker's acceptance rate plus a stamping fee of 2.25% to 3.00%.

The fair value of project specific financing, secured vendor take back debt on land inventory and debt on investment properties and golf course assets and convertible debenture have been calculated by discounting the expected cash flows of each loan using a discount rate specific to each individual loan. The discount rate is determined using the bond yield for similar instruments of similar maturity adjusted for each individual project's specific credit risk. In determining the adjustment for credit risk, we consider current market conditions and other indicators of credit worthiness.

### Derivative financial liabilities

Our derivative financial liabilities are comprised of floating for fixed interest rate swaps on mortgages (level 2) and the conversion feature on our REIT convertible debentures (level 3).

The fair value of the interest rate swaps are calculated as the net present value of the future cash flows expected to arise on the variable and fixed portion, determined using applicable yield curves at the measurement date. As at September 30, 2018, the fair value of interest rate swap contracts was \$1,091 (December 31, 2017 - \$1,057).

The significant unobservable inputs used in the fair value measurement of the conversion feature on the REIT convertible debenture as at September 30, 2018 are as follows:

- Volatility - expected volatility as at September 30, 2018 was derived from the historical prices of the REIT's trust units. As the REIT was formed on May 1, 2013, price history is limited and we have used the entire historical data up until September 30, 2018. Volatility was 21.70% (December 31, 2017 - 21.70%).
- Credit spread - the credit spread of the convertible debenture was imputed from the traded price of the convertible debenture as at September 30, 2018. The credit spread used was 2.81% (December 31, 2017 - 2.81%).

### REIT units

REIT units are remeasured to fair value on a recurring basis and categorized as level 1 in the fair value hierarchy. The units are fair valued based on the trading price of the REIT units at the period end date. At September 30, 2018 the fair value of the REIT units was \$106,813, resulting in a fair value gain during the quarter of \$1,582 and \$5,386 (2017 - gain of \$112 and loss of \$4,349) in the statement of income and comprehensive income for the period ended September 30, 2018 (note 11).

## 13. CREDIT RISK

Agreements receivable are collateralized by specific real estate sold. Agreements receivable relate primarily to land sales in Alberta and, accordingly, collection risk is related to the economic conditions of that region. We manage credit risk by selling to certain qualified registered builders.

As at September 30, 2018, we have agreements receivable balances of \$327 due from one of our registered builders that is currently in receivership, of which \$327 is overdue as of September 30, 2018. We hold title to the lots sold to this builder as specific security against this balance. Management has performed an assessment of the collectibility and of the underlying security for these agreements, and has concluded that no impairment is required as at September 30, 2018. We will continue to monitor our exposure to impairment as we work to settle the outstanding amounts.

## 14. EVENTS AFTER THE REPORTING PERIOD

### Distributions on REIT trust units

On October 15, 2018 the REIT declared a distribution of \$0.05625 per unit for the months of October, November and December 2018. The distributions will be payable as follows:

Month	Record Date	Distribution Date	Distribution Amount
October 2018	October 31, 2018	November 15, 2018	\$0.05625 per unit
November 2018	November 30, 2018	December 17, 2018	\$0.05625 per unit
December 2018	December 31, 2018	January 15, 2019	\$0.05625 per unit

### Dividends declared

On November 6, 2018 our board of directors declared a dividend of \$0.13 per share payable on December 28, 2018 to shareholders of record on December 14, 2018.
